Important Dates

- Call for abstracts – 29 May 2016
- Submission deadline for oral presentations – 30 June 2016
- Submission deadline for poster presentations – 3 July 2016
- Notification of acceptance – 3 July 2016
- Conference early bird registration – 15 July 2016

For more information go to www.eupfi.org/8th-conference/

### Topics for oral and poster presentations

1. Developing paediatric drug formulations
2. Exipients
3. Taste masking and taste testing
4. Administration devices
5. Bioavailability
6. Age appropriateness of formulation/compliance-adherence issues
7. Formulating paediatric medicines for developing countries
8. Lessons learned from PIP submissions

### Exhibition and Sponsoring

We are glad to tailor a sponsor package (starting from 1000 EUR) according to your wishes.

For general information, please go to www.apv-mainz.de

### Conference Secretariat

Kurfürstenstraße 59
55118 Mainz, Germany
Phone: +49 6131 9769-0

### Early bird Full fee

- 1225 EUR
- 1095 EUR
- 575 EUR

- 600 EUR
- 510 EUR
- 230 EUR
- 210 EUR
- 330 EUR
- 180 EUR
- 180 EUR
- 30 EUR

### Registration

All correspondence regarding the conference should be addressed to:

APV
Kurfürstenstraße 59
55118 Mainz, Germany
Phone: +49 6131 9769-0
Email: aupv@apv-mainz.de
Website: www.apv-mainz.de

You will receive a confirmation of your registration with the invoice.

Please contact Antonia Herbert
Phone: +49 6131 9769-90
Email: ah@apv-mainz.de

Register by 15 July 2016 to take advantage of the early bird fee.

Non-Member (Non-Academic, Non-Governmental)
Member of APV/EuPFI (Non-Academic, Non-Governmental)
Non-Member (Academic, Governmental)
Member of APV/EuPFI (Academic, Governmental)
Students (please enclose evidence)
Workshop prices additional to registration fee:
Non-Member + Member of APV/EuPFI (Non-Academic, Non-Governmental)
Non-Member + Member of APV/EuPFI (Academic, Governmental)
Students (please enclose evidence)

Do you want to participate in the Workshops:

- Yes
- No

### Course No. 6645/6646

**Formulating better medicines for children**

- Lisbon, Portugal
- 20 to 22 September 2016

Dear Colleagues,

We are pleased to announce that the 8th EuPFI annual conference will take place on the 21st – 22nd September 2016 in Lisbon, Portugal. This Conference Series is the ideal venue to exchange and share your thoughts and experiences with the various stakeholders involved in the field of paediatric pharmaceutical development.

The programme for the EuPFI meeting is typically designed around the workshops that comprise the EuPFI activity, Pharmaceutical Expert, TASTE tasting and a taste assessment method, Administration device, Age appropriate formulation and Bio-pharmaceuticals. The innovation showcase provides an opportunity for businesses working in paediatric formulations to raise awareness of their technology and share potential applications. Shorts talks (soapbox sessions) from submitted abstracts will be presented on the meeting of all who provided opportunities for networking and the initiation of new collaborations. We encourage you to explore the EuPFI website which contains all the information you need to submit your abstracts.

The conference provides a platform to exchange/reach many common goals/issue around both scientific and regulatory aspects related to pediatric formulation development. We do hope that you will be able to join us for what promises to be a most useful conference and we are looking forward to welcoming you in Lisbon, city of seven hills.

Catherine Tuleu, UCL School of Pharmacy, London, United Kingdom
Jörg Breitkreutz, Heinrich Heine University, Düsseldorf, Germany

The European Paediatric Formulation Initiative (EuPFI) is a cornerstone of members working in a pre-competitive way on paediatric drug formulations. It was founded in 2007 with the aim of supporting and promoting the design and development of novel drug products for children. More than 300 individuals from academia, hospitals and the pharmaceutical industry (innovators, generics, CROs, specials and excipient manufacturers), with EMA as a continuous observer. The main objective of the EuPFI is to resolve regulatory frameworks, and interact with key players in the regulatory environment/quality section of PIPs and the data package that comes into licensing division when the product has reached the market authorisation stage.

Although this meeting is well established on the paediatric calendar there are always those attending who will be new to the area. Therefore two pre-conference workshops are held to provide much needed focus and interactive sessions on 1) benefits and risks of potential paediatric drug product and 2) to introduce the regulatory framework/quality section of PIPs and the data package that comes into licensing division when the product has reached the market authorisation stage.

This conference will focus on challenges and opportunities for developing paediatric products. You will hear on the areas of the young people on effectively engaging with patients and the public in R&D. The other key topics that will covered in this conference include Update on industry standard framework and suite of tools to develop safe and efficacious paediatric dosage forms, Minimum data set/toolkit for the IPF workshop to improve the quality of data submitted on pharmaceutical development, Interactions between EMA, IPEC and EMA on formulation and excipients, formulation, excipient and much more.

The programme for the 8th EuPFI meeting is typically designed around the workshops that comprise the EuPFI activity, Pharmaceutical Expert, TASTE tasting and a taste assessment method, Administration device, Age appropriate formulation and Bio-pharmaceuticals. The innovation showcase provides an opportunity for businesses working in paediatric formulations to raise awareness of their technology and share potential applications. Shorts talks (soapbox sessions) from submitted abstracts will be presented on the meeting of all who provided opportunities for networking and the initiation of new collaborations. We encourage you to explore the EuPFI website which contains all the information you need to submit your abstracts.

The conference provides a platform to exchange/reach many common goals/issue around both scientific and regulatory aspects related to pediatric formulation development. We do hope that you will be able to join us for what promises to be a most useful conference and we are looking forward to welcoming you in Lisbon, city of seven hills.

Catherine Tuleu, UCL School of Pharmacy, London, United Kingdom
Jörg Breitkreutz, Heinrich Heine University, Düsseldorf, Germany

The programme is subject to change.
Please note the programme is subject to change. For more information, please visit euPFI.org.

Programme

PREFERENCE WORKSHOP
Tuesday, 20th September 2016, 9:00 to 10:00

Workshop 1: Developing PF quality criteria and its link with data requirements for market authorization application

Chair: Catherine Tuleu, Chair of EuPFI, UCL School of Pharmacy, United Kingdom

Jenny Walsh Consulting Ltd. and Smitha Salunke, UCL School of Pharmacy, United Kingdom Co-lead by – Terry Ernest, GlaxoSmithKline, Jenny Walsh, and IQ on Inactive ingredient database and paediatric formulations, Experipals and much more.

Tuesday, 20th September 2016, 10:00 to 11:00

Workshop 2: Case study: Benefit-risk approach on dosage form design for paediatrics

Chair: Terry Ernest, GlaxoSmithKline, Jenny Walsh, Smitha Salunke Consulting Ltd and UCL School of Pharmacy, United Kingdom

Tuesday, 20th September 2016, 11:00 to 12:00

Afternoon break, exhibition and poster presentations

Focus Session: Taste Masking & Taste testing

Chair: Big Seen, Novartis, Amsterdam, Netherlands

Tuesday, 20th September 2016, 12:00 to 13:00

Lunch, exhibition and poster presentations

PLENARY 1: Patient and Public Involvement – Views of young persons

Smart Stones, SIIAM Young INKE, NH CRN Children’s Health Research, Children’s Leukaemia Research

Clinical Studies Group

Tuesday, 20th September 2016, 13:00 to 14:00

Ms Sarah Glenn, GlaxoSmithKline, United Kingdom

Tuesday, 20th September 2016, 14:00 to 15:00

PLENARY 3: Minimum data/information set needed, the regulatory framework/quality section of PIPs and the data package that comes into licensing division when the product has reached the market authorization submission stage.

The programme for the EuPFI meeting is typically designed around the workshops that comprise the EuPFI activity, pharmaceutical Expert, taste masking and taste assessment methods, Administration device, Age appropriate formulation and Bio-pharmaceutics. The innovation showcase provides an opportunity for businesses working in paediatric formulations to raise the profile of their technology and show potential applications. Short talks (15-minute slots) from submitted abstracts will be presented in the next meeting of all which provided opportunities for networking and the initiation of new collaborations. We encourage you to explore the EuPFI website which contains all the information you need to submit your abstracts.

The conference provides a platform to exchange some common goals/solutions around both scientific and regulatory aspects related to pediatric formulation development.

We hope that you will be able to join us for what promises to be a most useful conference and we are looking forward to welcoming you in Lisbon, city of seven hills.

Catherine Tuleu, UCL School of Pharmacy, London, United Kingdom

Jörg Breitkreutz, Heinrich Heine University, Düsseldorf, Germany

Dear Colleagues,

We are pleased to announce that the 8th EuPFI annual conference will take place on the 21st – 22nd September 2016 in Lisbon, Portugal. The conference theme is the dual forum to discuss and debate the challenges and developments of age appropriate dosage forms.

Although this meeting is well established on the paediatric calendar there are always those attending who have been before. Thus there has much need for both informative and interactive sessions on (1) benefits and risks of potential paediatric drug product and (2) to introduce the regulatory framework/lifecycle/spot and the data package that comes into licensing division when the product has reached the market authorization submission stage.

This conference will focus on challenges and opportunities for developing paediatric products. You will hear on the views of the young people on effectively engaging with patients and the public in R&D. The other key topics that will cover in this conference include update on R&D framework and suite of tools to develop safe and efficacious paediatric dosage forms, Minimum data/information set needed for the IP submission to improve the quality of data submitted on pharmaceutical development, interactions between DQA, DQA and on clinical and paediatric formulations, formulation expertise and much more.

The programme for the EuPFI meeting is typically designed around the workshops that comprise the EuPFI activity, Pharmaceutical Expert, Taste masking and taste assessment methods, Administration device, Age appropriate formulation and Bio-pharmaceutics. The innovation showcase provides an opportunity for businesses working in paediatric formulations to raise the profile of their technology and show potential applications. Short talks (15-minute slots) from submitted abstracts will be presented in the next meeting of all which provided opportunities for networking and the initiation of new collaborations. We encourage you to explore the EuPFI website which contains all the information you need to submit your abstracts.

The conference provides a platform to exchange some common goals/solutions around both scientific and regulatory aspects related to pediatric formulation development.

We hope that you will be able to join us for what promises to be a most useful conference and we are looking forward to welcoming you in Lisbon, city of seven hills.

**Important Dates**

- **oral presentations**, 30 June 2016 submission deadline for poster presentations
- Notification of acceptance – 3 July 2016
- Conference early bird registration – 15 July 2016

For more information go to www.eu-pfi.org/8th-conference/

---

**Topics for oral and poster presentations**

1. Developing paediatric drug formulations
2. Excipients
3. Taste masking and taste testing
4. Administration devices
5. Modification of dosage forms required for children
6. Age appropriateness of formulation/compliance-adherence issues
7. Formulating paediatric medicines for developing countries
8. Lessons learned from IFP submissions
9. Bioequivalenceness

---

**Exhibition and Sponsoring**

We are glad to tailor a sponsor package (starting from 1000 EUR) according to your wishes.

---

**Conference Secretariat**
