

Formulating better medicines for children

Meeting the needs of children

BEGINNER WORKSHOP European Paediatric Formulation Initiative

A conference organised by the International Association for Pharmaceutical Technology (APV)
in partnership with the European Paediatric Formulation Initiative

11 June 2024 · Course no. 7001 · live online

live online

Programme

Tuesday, 11 June 2024

14:30 to 17:30 h, UK time

PRECONFERENCE WORKSHOP [ONLINE]

Beginner's workshop - Paediatric formulation Roadmap -
Points to consider & strategies to choose

Moderators:

David Clapham, Consultant, United Kingdom

Anne-Marie Pense-Lheritier, Consultant, France

Carsten Timpe, Consultant, Switzerland

Smita Salunke, UCL/EuPFI, United Kingdom

Kevin Hughes, IPEC & Colorcon, United Kingdom

Catherine Tuleu, UCL School of Pharmacy, United Kingdom

Jenny Walsh, Jenny Walsh Consulting Ltd, United Kingdom

Sandra Klein, University of Greifswald, Germany

This workshop will comprise a mix of lecture content and group exercises designed to help attendees who are not familiar with formulations for children to understand the considerations involved in designing and choosing appropriate dosage forms for this important demographic.

At the end of the workshop, you will have gained or reinforced an understanding of the factors/strategies that need to be considered when designing formulations for children and will have drawn upon your formulation skill. It will be suitable for attendees who have little or no appreciation of what is involved in pharmaceutical product formulation as a brief introduction will be given. However, the main target audience for this session will be formulators who are new to paediatric product formulation and want to deepen their knowledge in this field of expertise.
